

AN OPEN LETTER TO OUR OHIO LISTENERS

Late in 2023, we sold 105.9FM, our former transmitter serving Northern Cincinnati and Dayton. This was not a decision we took lightly. It allowed us to eliminate debt and to escape the current high interest rates that pervade commercial lending. The offer to sell was an exceptional one and, from a strictly business point of view, it was the right thing to do.

We were not prepared for the thousands of e-mails and calls we received from disappointed listeners who found that they lived outside the coverage area of WNKR, our remaining station. Many converted to our streaming service, but almost universally they expressed a preference for over-the-air reception.

Our search began almost immediately for a replacement signal for 105.9FM that would allow us to restore service to these listeners under more palatable business terms.

I am pleased to announce that the search is over and The Oasis can now be found on 97.7FM. Broadcasting from the same tower as 105.9, 97.7 The Oasis will provide a quality signal over 90-95% of the area formerly served by us on 105.9. Southern Cincinnati and Northern Kentucky listeners will still find us- loud and clear- on 106.7FM. Simply set two presets on your car radio and use the one that works best for you.

I cannot tell you how excited we are to be back with all of our Ohio friends. No matter where you are in the Ohio and Miami Valleys you can now get reliable, high quality reception.

Thanks for listening to The Oasis and for supporting quality, independent broadcasting.

Jeff Ziesmann
General Manager & CEO
97.7 & 106.7 The Oasis
